| OSHA-PEL
| Not established

Engineering controls

Not normally required if good ventilation is maintained.

Personal protective equipment

Consult the product label for special protection or precautions that have been identified for using this product under directed consumer use conditions. The following recommendations are given for workplace employees, emergency personnel and for other conditions and situations where there is a greater potential for large-scale or prolonged exposure.

Eye / face protection

No special requirements under normal use conditions. Emergency responders should wear full eye and face protection.

If splashes are likely to occur, wear: Goggles.

Hand protection

No special requirements under normal use conditions.

Emergency responders should wear impermeable gloves.

Skin and body protection

Prolonged or frequent skin contact may produce an allergic reaction in some individuals. Wash off with soap and water.

Emergency responders should wear impermeable clothing and footwear when responding to a situation where contact with the liquid is possible.

Respiratory protection

Not normally required if good ventilation is maintained.

If a risk assessment indicates this is necessary, use an approved NIOSH respirator.

General hygiene considerations

Avoid contact with skin, eyes and clothing.

Handle in accordance with good industrial hygiene and safety practice.
