

# SAFETY DATA SHEET

**Air Wick Candle - Pear Crumble**

HEALTH • HYGIENE • HOME

## 1. Identification of the material and supplier

**Names**

**Product name** : Air Wick Candle - Pear Crumble  
**SDS no.** : D8183262  
**Formulation #** : #8178767\_1  
**Manufacturer** : Qingdao KingKing A.C. Co,Ltd  
 25/F Futai Plaza,  
 No.18 HK middle road,  
 Qingdao, China  
 +86 53 285718989287

Best Base International Limited Company  
 35-36 Linh Trung Export Processing Zone and Industrial Park III,Trang Bang District,  
 Tay Ninh Province, Vietnam.  
 Phone number 0084-66-33898136.

**Emergency telephone number** : (5 pm - 8 am EST Australia): +61 (02) 9857 2444  
 NewZealand: (09) 839 0200

**Poison Information contact:** : Australia - 13 11 26  
 New Zealand - 0800 764 766 or 0800 POISON

**Material uses** : Candle

**Product use** : Consumer

## 2. Hazards identification

**Statement of hazardous/ dangerous nature** : NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

**Classification** : Not regulated.

**Risk phrases** : Not classified

**Safety phrases** : S2- Keep out of the reach of children.  
 S46- If swallowed, seek medical advice immediately and show this container or label.

**Recommendations** : KEEP FREE FROM FOREIGN OBJECTS (e.g. MATCHES). Never leave a burning candle unattended, near flammable material or for more than 4 hours. Place on a flat, heat resistant surface, away from draughts. Store candle in an upright position. Keep wick trimmed to 1 cm to avoid excessive smoking. Do not move or tip while lit or before liquid hardens. Glass will be hot during and after use. Stop when less than 1 cm of product remains and never allow the candle to burn all the way down. Extinguish candle by blowing gently. Always leave at least 20cm between burning candles. Do not use if the glass is damaged. People suffering from perfume sensitivity should be cautious when using this product. Air Fresheners do not replace good hygiene practices. Do not burn candles on or near anything that can catch fire. Do not use on hot surfaces e.g. T.V. Do not allow the flame to touch the side of the glass holder. Do not use the glass candle holder for drinking purposes or for storing food.

## 3. Composition/information on ingredients

**Mixture** : Yes.

Ingredient name	CAS number	Proportion % w/w
cinamaldehyde	104-55-2	< 1
eugenol	97-53-0	< 1

**There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.**

**Date of issue** : 03/02/2015.

**Page: 1/6**

D8183262

## 4. First-aid measures

### First-aid measures

- Inhalation** : Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
- Ingestion** : Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
- Skin contact** : Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
- Eye contact** : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.

## 5. Fire-fighting measures

### Extinguishing media

- Suitable** : Use an extinguishing agent suitable for the surrounding fire.
- Not suitable** : None known.
- Special exposure hazards** : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.  
No specific fire or explosion hazard.
- Hazardous thermal decomposition products** : No specific data.
- Special protective equipment for fire-fighters** : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## 6. Accidental release measures

- Personal precautions** : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment (see Section 8).
- Environmental precautions** : Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
- Methods for cleaning up**
- Small spill** : Move containers from spill area. Vacuum or sweep up material and place in a designated, labelled waste container. Dispose of via a licensed waste disposal contractor.
- Large spill** : Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Vacuum or sweep up material and place in a designated, labelled waste container. Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## 7. Handling and storage

- Handling** : Put on appropriate personal protective equipment (see Section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas.

D8183262

## 7. Handling and storage

**Storage** : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.

## 8. Exposure controls/personal protection

### Australia

**Occupational exposure limits** : No exposure standard allocated.

### New Zealand

**Occupational exposure limits** : No exposure standard allocated.

**Recommended monitoring procedures** : If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to appropriate monitoring standards. Reference to national guidance documents for methods for the determination of hazardous substances will also be required.

### Manufacturer: Exposure controls

**Engineering measures** : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

**Hygiene measures** : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

**Eyes** : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

**Hands** : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

**Respiratory** : Use a properly fitted, particulate filter respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

**Skin** : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

**Environmental exposure controls** : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

## 9. Physical and chemical properties

**Physical state** : Solid.

**Colour** : Amber.

**Odour** : Pear.

**Boiling point** : Not available.

**Melting point** : Not available.

**Vapour pressure** : Not available.

**Density** : Not available.

**Flash point** : Not available.

D8183262

## 9. Physical and chemical properties

Vapour density : Not available.  
 pH : Not available.  
 Viscosity : Not available.  
 Solubility : Not available.

## 10. Stability and reactivity

Chemical stability : The product is stable.  
 Possibility of hazardous reactions : Under normal conditions of storage and use, hazardous reactions will not occur.  
 Conditions to avoid : No specific data.  
 Materials to avoid : No specific data.  
 Hazardous decomposition products : Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## 11. Toxicological information

### Acute toxicity

Product/ingredient name	Result	Species	Dose	Exposure
cinnamaldehyde	LD50 Dermal	Rabbit	620 mg/kg	-
	LD50 Oral	Rat	1850 mg/kg	-

### Irritation/Corrosion

Product/ingredient name	Result	Species	Score	Exposure	Observation
cinnamaldehyde	Skin - Severe irritant	Human	-	48 hours 40 milligrams	-

Eyes : Not available.

Respiratory : Not available.

### Sensitiser

Skin : Not available.

Respiratory : Not available.

### Mutagenicity

Conclusion/Summary : Not available.

### Carcinogenicity

Conclusion/Summary : Not available.

### Reproductive toxicity

Conclusion/Summary : Not available.

### Teratogenicity

Conclusion/Summary : Not available.

### Potential acute health effects

Inhalation : No known significant effects or critical hazards.

Ingestion : No known significant effects or critical hazards.

Skin contact : No known significant effects or critical hazards.

Eye contact : No known significant effects or critical hazards.

### Potential chronic health effects

#### Chronic toxicity

Conclusion/Summary : Not available.

Chronic effects : No known significant effects or critical hazards.

Carcinogenicity : No known significant effects or critical hazards.

Mutagenicity : No known significant effects or critical hazards.

Teratogenicity : No known significant effects or critical hazards.

D8183262

## 11. Toxicological information

**Developmental effects** : No known significant effects or critical hazards.

**Fertility effects** : No known significant effects or critical hazards.

### Over-exposure signs/symptoms

**Inhalation** : No specific data.

**Ingestion** : No specific data.

**Skin** : No specific data.

**Eyes** : No specific data.

## 12. Ecological information

**Ecotoxicity** : No known significant effects or critical hazards.

### Aquatic ecotoxicity

Product/ingredient name	Result	Species	Exposure
cinnamaldehyde	Acute EC50 7.05 ppm Fresh water	Daphnia - Daphnia magna	48 hours
	Acute LC50 1.67 ppm Fresh water	Fish - Oncorhynchus mykiss - Juvenile (Fledgling, Hatchling, Weanling)	96 hours

### Other ecological information

Product/ingredient name	LogP <sub>ow</sub>	BCF	Potential
cinnamaldehyde	1.83	8	low

**Other adverse effects** : No known significant effects or critical hazards.

## 13. Disposal considerations

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

### 13.1 Waste treatment methods

#### Product

**Methods of disposal** : The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

**Hazardous waste** : Within the present knowledge of the supplier, this product is not regarded as hazardous waste, as defined by EU Directive 91/689/EEC.

#### Packaging

**Methods of disposal** : The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.

**Special precautions** : This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

## 14. Transport information

Regulation	UN number	Proper shipping name	Classes	PG*	Label	Additional information
ADG	Not available.	Not available.	Not available.	-		-
IMDG	Not available.	Not available.	Not available.	-		-
IATA	Not available.	Not available.	Not available.	-		-

PG\* : Packing group

## 15. Regulatory information

### Standard for the Uniform Scheduling of Medicines and Poisons

Poison schedule (Australia) :

Australia inventory (AICS) : Not determined.

New Zealand Inventory of Chemicals (NZIoC) : Not determined.

## 16. Other information

**Abbreviations and acronyms** : ADG = Australian Code for the Transport of Dangerous Goods by Road and Rail  
 HSNO = Hazardous Substances and New Organisms Act 1996 (New Zealand)  
 IATA = International Air Transport Association  
 IMDG = International Maritime Dangerous Goods  
 N.O.S. = Not otherwise specified  
 NOHSC = National Occupational Health and Safety Commission (Australia)

**Date of issue / Date of revision** : 03/02/2015.

**Version** : 1

✔ Indicates information that has changed from previously issued version.
